Port Authority of Kribi, PAK *Kribi, CM*
CYBERSECURITY ENGINEER INTERN *02/2023 - 08/2023*

- Designed and implemented a Security Information and Event Management (SIEM) system to enhance threat detection capabilities.
- Performed testing and deployment of computer hardware to optimize network security infrastructure.
- Provided user assistance and support, ensuring smooth operations and addressing security concerns promptly.

General Delegation for National Security, DGSN *Yaoundé, CM*
PRE-ENGINEER NETWORK SECURITY INTERN *07/2022 - 10/2022*

- Designed and implemented a Network Access Control (NAC) system to regulate network access and enhance security posture.
- Conducted asset mapping exercises to identify critical network assets and vulnerabilities.
- Implemented risk management strategies and performed network monitoring to mitigate potential threats.

Association APSF and ACMALEF *Yaoundé, CM*
IT MANAGER *08/2022 - present*

- Administered the website amouretpartage.ovh, ensuring its smooth operation and security.
- Managed various social media pages, effectively communicating with stakeholders and promoting organizational objectives.

EDUCATION

National Advanced School of Engineering of Yaounde *Yaoundé, CM*
MASTER OF ENGINEERING, CYBERSECURITY AND DIGITAL INVESTIGATION *09/2018 - 08/2023*

- Linux Administration and Shell
- Azure
- Kubernetes
- Containerization with Docker
- Office 365
- IT Support
- Python
- Bash scripting
- Hashing Algorithms: MD4, MD5,
- SHA
- Asymmetric Encryption: RSA
- Symmetric Encryption: Triple DES, RC4, AES
- Secure Communication Protocols: IPsec, SSL/TLS, SSH
- Oauth Protocol
- PacketFence NAC, Cisco Cnac
- Zabbix | Nagios

ABOUT

Dedicated Cybersecurity Analyst, proficient in safeguarding endpoints, providing DevOps support, deploying SIEM solutions, and implementing NAC frameworks. Actively participates in Capture The Flag competitions for continuous skill enhancement and innovative problem-solving
